

Task 1 – Identify User Actions (Broken Down)

1-1 > List all possible actions for each user type

- Trainee:
 - Sign up for a task (food or cleaning)
 - View the current Rota
 - See who else signed up
 - [Future] Cancel their submission
- Admin:
 - View all tasks
 - Remove a task
 - Edit a task (future)
 - Filter tasks by date or type

User Actions in Task Management System

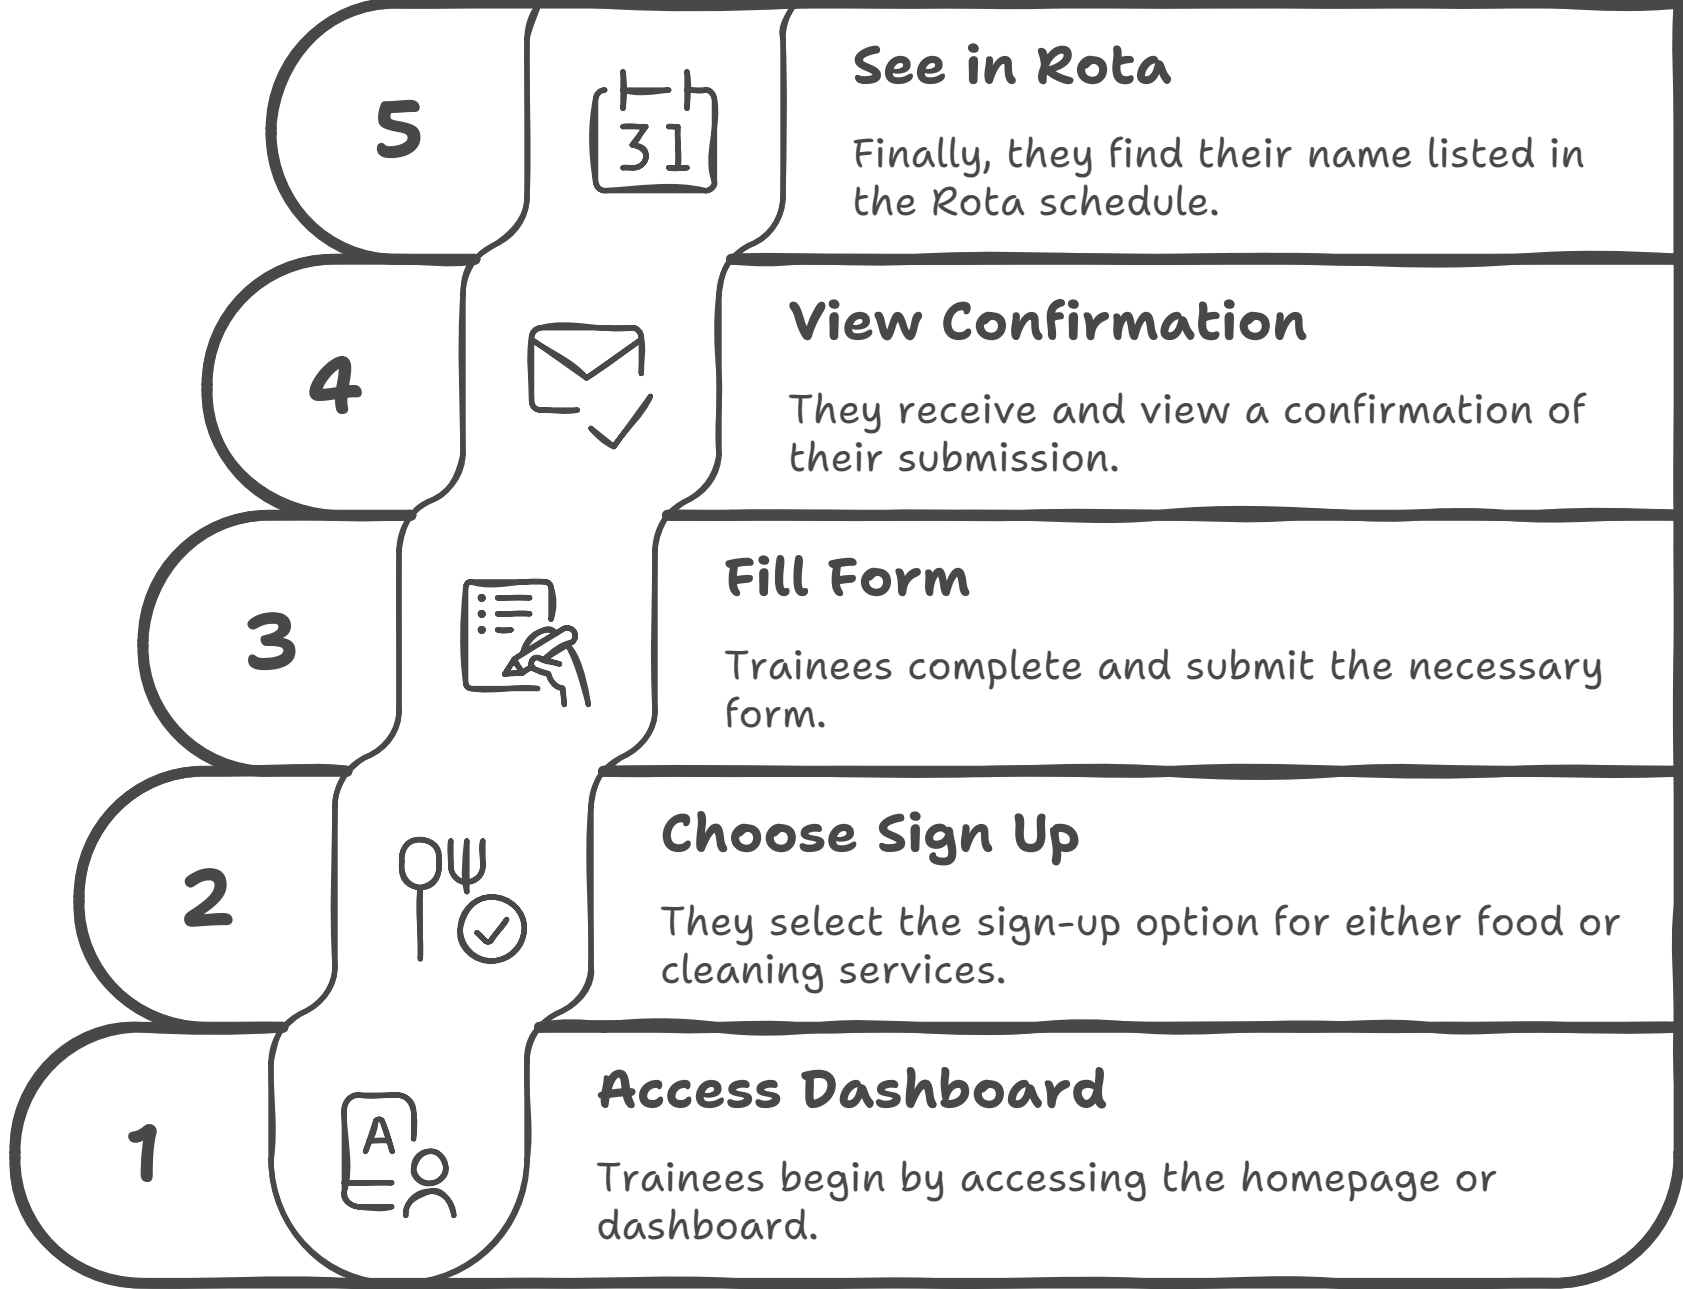

1-2 > Map user flow for trainees

Goal: Understand the trainee's journey step-by-step

- Access homepage/dashboard
- Choose “Sign up” for food or cleaning
- Fill out and submit the form
- View confirmation
- Later, see their name in the Rota list

Mapping Trainee Journey

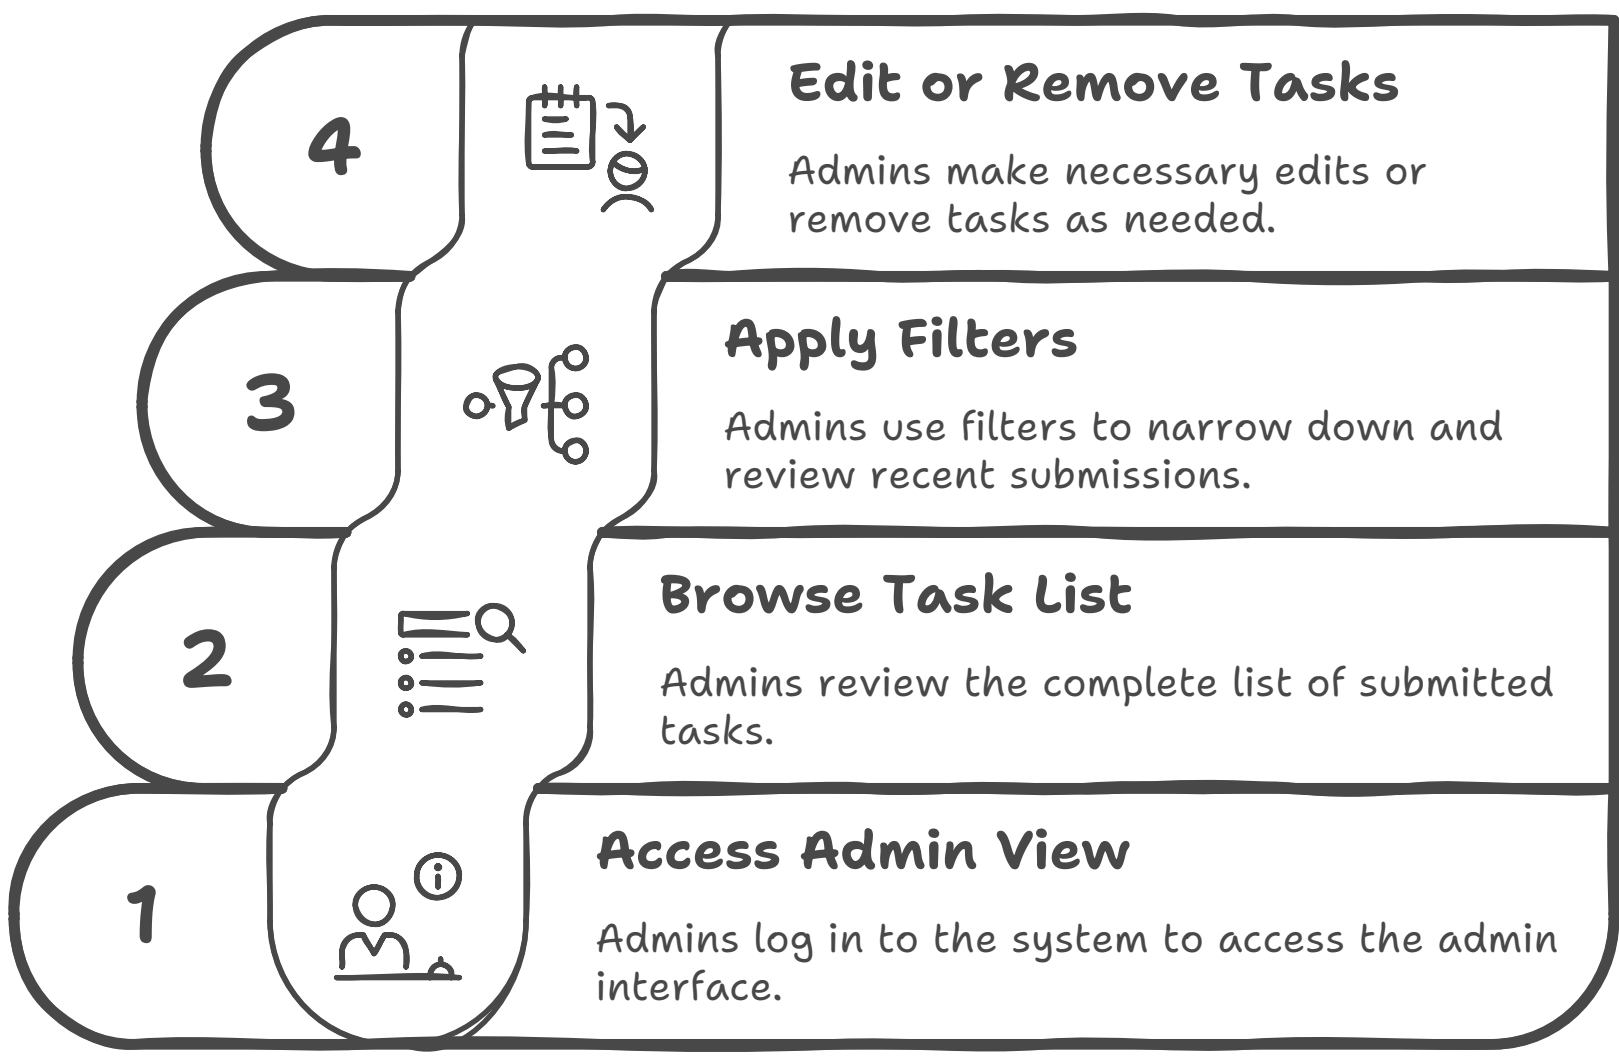

1-3 > Map user flow for admins

Goal: Understand how admins manage the Rota

- Login or access admin view
- Browse full list of submitted tasks
- Use filters to review recent submissions
- Remove or edit entries if needed

Admin Rota Management Process

1-4 > Consider edge cases and UX moments

- What if a trainee submits twice for the same day?
- What happens after submission [confirmation message]?
